Nancy:

Attached is the revised draft FRN for the WOUS Science Synthesis Report - a.k.a. the Connectivity Report. This version captures most of the revisions suggested by OW and the authors of the draft report. Almost all of the edits had to do with the description of the expertise needed.

I note three suggestions from OW that I did not include in this revised FRN.

Let me know if you have any comments or suggestions. We here in ORD, and I'm sure your team in OW, are all looking forward to moving this forward.
